For its 35th edition, La Dictée P.G.L. is focusing on the theme of **information and communication technologies (ICTs)** and their role in learning.

At a time when digital technology is revolutionizing our classrooms and our daily lives, La Dictée P.G.L. offers students an exceptional opportunity to discover ICTs through fun, concrete and educational activities. These activities lead them to reflect on responsible, inclusive and safe uses of these tools.
